CHARACTER SHEET

Your Character Sheet provides all the information you need to play the game. It also provides a place to write down your current status, weapons, armor, and equipment.

CHARACTERISTICS & SKILLS

- 1 Your characteristics are used to calculate many game values but are rarely used directly. Whenever you attempt a task that might fail, you make a skill check. The dice you roll for this check are called your dice pool, and are based on your rank in that skill and your characteristic. If you roll more  than , you succeed.
- 2 Please reference these skills and descriptions of what they do on the back of the **BEGINNER GAME** rulebook.

SYMBOLS & DICE

 Success  symbols are canceled by Failure  symbols; if there are any Success  symbols left at the end (after canceling), the check succeeds.

 Triumph  symbols count as Success  symbols and may also be spent to trigger a powerful positive consequence.

 Advantage  symbols indicate a positive side effect or consequence, even on a failed check. They cancel and are canceled by Threat  symbols.

 Failure  symbols cancel Success  symbols. If there are enough Failure  symbols to cancel all the Success  symbols, the check is a failure.

 Despair  symbols count as Failure  symbols (they cancel Success  symbols) and may also be spent to trigger a powerful negative consequence.

 Threat  symbols indicate a negative side effect or consequence, even on a successful check. They cancel and are canceled by Advantage  symbols.

CHARACTER HEALTH STATS

- 3** **Soak** score reduces incoming damage and can prevent wounds. Your soak value is equal to the sum of your Brawn and the soak value of your armor.
- 4** **Wounds** represent physical damage to your body. If your wounds exceed your **Wound Threshold**, you are knocked out and suffer a Critical Injury. Wounds can be recovered through the Medicine skill and stimpacks.
- 5** **Strain** represents exhaustion, mental trauma, and being stunned. You may voluntarily suffer 2 strain to perform an extra maneuver on your turn. Strain comes and goes more quickly than wounds. If your strain ever exceeds your **Strain Threshold**, you pass out.
- 6** You might suffer **Critical Injuries** during your adventures, either when you're knocked out by exceeding your wound threshold or as the result of an attack. Keep track of the number of Critical Injuries here. For a description of the effects of your Critical Injuries, refer to the back cover of the **BEGINNER GAME** adventure.

DIPLOMAT: TALENT TREE 2

Career Skills: Charm, Coercion, Deception, Knowledge, Leadership, Negotiation, Streetwise

INVESTING EXPERIENCE POINTS

As you continue to play, you will occasionally receive experience from the GM that you can spend to improve your character. You may spend this XP to increase your skills or to advance along your talent tree. See page 11 of the **BEGINNER GAME** rulebook for more detailed information.

SKILL TRAINING 1

The cost for training skills falls into one of two categories: career skills and non-career skills. Each skill has five ranks of training available.

Training a career skill costs five times the value of the next highest rank. For example, training a career skill from rank 0 (untrained) to rank 1 requires 5 experience points. Improving a rank 1 career skill to rank 2 requires 10 experience points. Each rank must be purchased separately. This means that training a career skill from rank 0 to rank 2 costs 15 experience points (5 for raising it from rank 0 to rank 1, then 10 more for raising it from rank 1 to rank 2).

You can also purchase ranks in your non-career skills. Each rank of a non-career skill costs 5 additional experience points. For example, training a non-career skill from rank 0 (untrained) to rank 1 requires 10 experience points. Improving a rank 1 non-career skill to rank 2 requires 15 experience points, and so on.

ACQUIRING TALENTS 2

Talents are acquired from your career talent tree. This talent tree provides a unique format for purchasing talents that comes with several special rules and restrictions.

Your talent tree has four columns and three rows. The cost of each talent depends on the row it occupies. Talents in the top-most row are the cheapest, costing 5 experience points each. The next row's choices cost 10 experience points each, and the third and final row's choices costs 15 experience each.

Note that the choices on the tree are connected by a series of lines that link some talent choices with others. When purchasing talents, you may only purchase talents you are eligible for. You are eligible to select any talents in the first, topmost row, plus any talents that are connected via one of the aforementioned links to one or more talents you have already acquired. Each entry on the talent tree can only be acquired once. Some trees have multiple entries for a single talent. This is because several of the talents can be learned repeatedly. When you learn a talent for the second—or later—time, you gain an additional rank of the ability.

JIN-RIO'S STORY

The planet Colstev, Jin-Rio's home, is a smallish, rocky world in the Stewjon system. Most of the population lives in domed cities built into the craters that dot the planet's surface. Colstev's cities are large, cosmopolitan, and hotbeds of intellectualism, political rhetoric, and, according to people from the rest of Stewjon system, bossiness.

Jin-Rio was born and raised on Colstev and attended the University of Zo-Ro where she studied Political Science and immediately became heavily involved in local politics. Like many idealistic young university students, Jin-Rio marched on the capital of Colstev, read proclamations condemning Imperial cronyism and human-centric policies, and generally made a nuisance of herself at every opportunity. Due to Colstev's long tradition of free speech and vitriolic political rhetoric, Jin-Rio and her comrades were caught completely by surprise when one of their peaceful demonstrations was interrupted by Imperial stormtroopers and AT-ATs. Hundreds of students died and the University of Zo-Ro was closed.

The Massacre of Zo-Ro, as it came to be known, was the watershed moment for Jin-Rio. She went into hiding as the ISB crawled through the city, rounding up any suspected dissidents and, on occasion, their families. Jin-Rio watched as most of her friends (those who had survived the massacre, at least) disappeared one by one. Seeing no other options, Jin-Rio fled the planet and joined the Rebel Alliance, vowing to return one day and restore democratic principles to her homeworld.

Now, Jin-Rio serves attached to Special Operations, where she lends her expertise as a Political Advisor to high-ranking officers such as Arkhan Brem'tu. She also engages in field missions to destabilize Imperial control and apply political leverage to recalcitrant civilian governments.
